Introduction

Mission Statement

The Mississippi Department of Education (MDE) is dedicated to student success, which includes improving student achievement in the social studies, equipping citizens to solve complex problems, and establishing fluent communication skills, while preparing students for college, career, and civic life. The Mississippi College- and Career-Readiness Standards (CCRS) provide a consistent, clear understanding of what students are expected to know and be able to do by the end of each grade level or course. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and allowing students to compete in the global economy.

Purpose

This document is designed to provide districts and K-12 social studies teachers with a basis for curriculum development. In order to prepare students for careers and college, it outlines what knowledge students should obtain, and the types of skills students must master upon successful completion of each grade level. The *2018 MS CCRS for the Social Studies* reflect national expectations while focusing on postsecondary success, but they are unique to Mississippi in addressing the needs of our students and teachers. The standards' content centers around three practices: conceptual understanding, fostering inquiry, collaboration and action, and integration of content skills. Instruction in these areas is designed for a greater balance between content and process. Teachers are encouraged to transfer more ownership of the learning process to students, who can then direct their own learning and develop a deeper understanding of computer science and the problem-solving process. Doing so will produce students that will become more capable, independent, and literate adults.

Implementation

The *2018 MS CCRS for the Social Studies* will be piloted during the 2018-2019 school year and implemented during the 2019-2020 school year.

THE REVISION PROCESS FOR THE MS CCR STANDARDS FOR THE SOCIAL STUDIES

The Social Studies Curriculum Revision Team was selected in June 2016 from nominations by school district superintendents and administrators. The purpose of the team was to revise the *2011 Mississippi Social Studies Framework*. The team was composed of teachers, administrators, and university professors throughout Mississippi.

In order to gain a sufficient understanding of the direction of social studies education, the curriculum revision team reviewed the following:

- National Council for the Social Studies: ***College, Career, and Civic Life (C3) Framework for Social Studies State Standards: Guidance for Enhancing the Rigor of K-12 Civics, Economics, Geography, and History***
- National Assessment of Educational Progress (NAEP) Framework for [Civics](#), [Economics](#), [Geography](#), and [U.S. History](#)
- ACT College- and Career-Readiness (CCR) Benchmarks
- *National Standards for History Education*
- *National Standards for the Social Studies*
- *National Standards for Economic Education*
- *National Standards for Civics and Government*
- *National Standards for Geography*
- Standards for Advanced Placement programs
- Social Studies standards from other states
- Current literature and research regarding the Social Studies

These resources served as a foundation for the development of the *2018 MS CCRS for the Social Studies*.

STRANDS

The different content strands in social studies combine to give a clear picture of the past and present. Strands also give depth to the social studies curriculum, enabling students to grasp the complexity of events from the past and present and help them acquire critical thinking skills to make informed decisions in the future. The **2018 Mississippi College- and Career-Readiness Standards for the Social Studies** is comprised of five (5) essential content strands: Civics, Civil Rights, Economics, Geography, and History.

Civics Strand

The civics strand should provide students with a basic understanding of civic life, politics, and government. It should help them understand the workings of their own and other political systems as well as the relationship of American politics and government to world affairs. Civics instruction provides a basis for understanding the rights and responsibilities of citizens in American constitutional democracy and a framework for competent and responsible participation. The civics strand should be expanded by related learning experiences, in both school and community, that enable students to learn how to participate in their own governance.

Civil Rights Strand

Mississippi Code 37-13-193 requires the Mississippi Department of Education to work with the Mississippi Civil Rights Education Commission to incorporate civil rights education into the state's K-12 educational programs. Civil rights education, as understood by the writers of this framework, is defined as the mastery of content, skills and values that are learned from a focused and meaningful exploration of civil rights issues (both past and present), locally, nationally and globally. This education should lead learners to understand and appreciate issues such as social justice, power relations, diversity, mutual respect, and civic engagement. Students should acquire a working knowledge of tactics engaged by civil rights activists to achieve social change. Among these are: demonstrations, resistance, organizing, and collective action/unity. The content was incorporated as a content strand throughout the entire K-12 framework at the recommendation of the Mississippi Civil Rights Commission.

Economics Strand

The economic strand should help students gain an understanding of economic concepts, while demonstrating an understanding of economic and financial literacy in order to make informed financial decisions throughout their lives. The strand is integrated throughout the K-12 curriculum emphasizing economic reasoning. Throughout the K-12 curriculum, students will grasp an understanding of markets and the U.S. economy in a global setting.

Geography Strand

The geography strand equips students with the knowledge, skills, and perspectives of world geography. Students will learn how to use geographic thinking and information to make well-reasoned decisions and to solve personal and community problems. The geography strand will enable students to use geographic perspectives, knowledge, and skills to engage in ethical action with regard to self, other people, other species, and Earth's diverse cultures and natural environments.

History Strand

The history strand investigates events that change the way people live. History is a record of the past, of people who changed society. We learn history from 2 sources: primary and secondary sources. The strand looks into how the past shape does the present, how have people and events changed society, and how have influences of other, more powerful countries, affected countries today.

Suggested Course Sequence Secondary Options for 6th – 9th Social Studies

The course codes follow the course names in parentheses. For other options for social studies classes, please refer to the Approved Secondary Course Codes Report. These are the most commonly used courses for secondary level students. Beginning with school year 2015-2016, the following options are available for Social Studies course sequence for middle school:

Grade Level	OPTION 1 (Course Code)	OPTION 2 (Course Code)	OPTION 3 (Course Code)
6	Civics and the World	World History from Pre-Historic Era to Age of Enlightenment (450837)	Civics and the World
7	World History from Pre-Historic Era to Age of Enlightenment (450837)	*Compacted 7 th Grade U.S. History from Exploration to Reconstruction and Citizenship (451035)	World History from Pre-Historic Era to Age of Enlightenment (450837)
8	U.S. History from Exploration to Reconstruction (450804)	Mississippi Studies (One semester .5 Carnegie Unit) (450705) / *Compacted Introduction to World Geography (451030) (One semester .5 Carnegie Unit)	U.S. History from Exploration to Reconstruction (450804) Option to add Mississippi Studies (450705) (One semester .5 Carnegie Unit) and/or World Geography (One semester .5 Carnegie Unit)
9	Mississippi Studies (450705) / Introduction to World Geography (450704)/ AP Human Geography (450715)	World History from Age of Enlightenment to Present (450835)	World History from Age of Enlightenment to Present (450835)

*NOTE: For Option 2, the standards for the World Geography and Citizenship course must be integrated into the U.S. History and the Introduction to World Geography courses taught in the 7th and 8th grades, as outlined in the attached documents.

**NOTE: For Option 3, U.S. History from Exploration to Reconstruction must be taught in the 8th grade. MS Studies and Geography are taught in addition to the U.S. History course as separate courses.

7. Assess the scope of presidential power and decision making through examination of case studies such as the Cuban Missile Crisis, passage of Great Society legislation, War Powers Act, Gulf War, and Bosnia.
8. Trace the process by which policy is implemented by the bureaucracy at each level.
9. Contrast the organization, jurisdiction, and proceedings of federal courts.
10. Evaluate how John Marshall established the Supreme Court as an independent, co-equal branch of government through his opinion in *Marbury v. Madison*.
11. Analyze how the Supreme Court decides cases by comparing the philosophies of judicial activism and judicial restraint.
12. Evaluate how the judiciary influences public policy by delineating the power of government and safeguarding the rights of the individual.

MISSISSIPPI COLLEGE- and CAREER-READINESS STANDARDS for the Social Studies • 2018

USG.4

Analyze of the role of federalism in addressing the distribution of power between the national, states and local governments. (Strands: Civics, Civil Rights, History, Economics)

1. Explain the relationship of the state governments to the national government.
2. Trace the extent to which power is shared.
3. Identify the powers denied state and national governments.
4. Evaluate the ongoing debate that focuses on the balance of power between state and national governments, especially in terms of funding.
5. Investigate how the amendment process protects both the national and state government.
6. Explain how conflicts between levels of government and branches of government are resolved.
7. Compare the major responsibilities and sources of revenue for state and local governments.
8. Contrast reserved powers and concurrent powers of state governments.
9. Compare and contrast the Ninth and Tenth Amendments and interpretations of the extent of the federal government's power.

USG.5

Compare and contrast civil rights and civil liberties and explain how each have been interpreted and amended throughout American history. (Strands: Civics, Civil Rights, History, Economics).

1. Investigate the Bill of Rights, with emphasis on First Amendment freedoms.
2. Analyze the concept of due process of law as expressed in the 5th and 14th Amendments.
3. Trace selective incorporation of the Bill of Rights.
4. Evaluate the balance between individual liberties and the public interest of order.
5. Assess the statement "It is every citizen's right to be treated equally under the law".
6. Trace the changing interpretations of the Bill of Rights over time, including interpretations of the basic freedoms, including: religion, speech, press, petition, and assembly, articulated in the First Amendment and the due process and equal-protection-of-the-law clauses of the Fourteenth Amendment.
7. Analyze judicial activism and judicial restraint and the effects of each policy over the decades, including: the Warren and Rehnquist courts.
8. Evaluate the effects of the Court's interpretations of the Constitution in *Marbury v. Madison*, *McCulloch v. Maryland*, and *United States v. Nixon*, with emphasis on the arguments espoused by each side in these cases.
9. Investigate the controversies that have resulted over changing interpretations of civil rights, including: *Plessy v. Ferguson*, *Brown v. Board of Education*, *Miranda v. Arizona*, *Regents of the University of California v. Bakke*, *Adarand Constructors, Inc. v. Peña*, and *United States v. Virginia (VMI)*.

USG.6

Describe the role and function of linkage institutions such as the media, interest groups, political parties, and political action committee, on the citizens and federal government. (Strands: Civics, Civil Rights, History, Economics)

1. Compare and contrast the role and function of the media, interest groups, political parties, political action committees in a democracy.
2. Analyze the origin, development, and role of political parties, noting those occasional periods in which there was only one major party or were more than two major parties.
3. Trace the history of the nomination process for presidential candidates and the increasing importance of primaries in general elections.
4. Evaluate the roles of polls, campaign advertising, and the controversies over campaign funding.
5. Examine how linkage groups impact primary and general elections, and citizen involvement in campaigns.
6. Identify major interest groups, including: AARP, NRA, ACLU, American Bar Association, American Medical Association, National Chamber of Commerce, and Sierra Club, in terms of their major agenda messages.
7. Evaluate the responsibility of the citizens to thoughtfully evaluate evidence presented by media and interest groups in order to form their political opinions.
8. Evaluate the role of journalism including internet vs. traditional media on the political process.
9. Debate the history and role of Political Action Committees and interest groups on the electoral process.
10. Evaluate the decision *Citizens United v. Federal Election Commission* on campaign financing.

USG.7

Describe and evaluate the role, rights, and responsibility of a citizen in the American democracy. (Strands: Civics, Civil Rights, History, Economics)

1. Evaluate the effectiveness of citizen efforts to influence decisions of state and local governments by examining historical or contemporary events.
2. Analyze how individuals, interest groups, and the media influence public policy.
3. Compare the means that citizens use to participate in the political process, including: voting, campaigning, lobbying, filing a legal challenge, demonstrating, petitioning, picketing, and running for political office.
4. Develop and practicing a course of action to address local and/or state issues.
5. Analyze trends in voter turnout, the causes and effects of reapportionment and redistricting, with special attention to spatial districting and the rights of minorities, and the function of the Electoral College.
6. Contrast the meaning and importance of each of the rights guaranteed under the Bill of Rights and how each is secured, including: freedom of religion, speech, press, assembly, petition, privacy.
7. Debate how economic rights are secured and their importance to the individual and to society, including: the right to acquire, use, transfer, and dispose of property, the right to choose one's work, the right to join or not join labor unions, copyright and patent.
8. Discuss the individual's legal obligations to obey the law, serve as a juror, and pay taxes.
9. Trace the obligations of civic-mindedness, including: voting, being informed on civic issues, volunteering and performing public service, and serving in the military or alternative service.
10. Describe the reciprocity between rights and obligations, that is, why enjoyment of one's rights entails respect for the rights of others.
11. Explain how one becomes a citizen of the United States, including the process of naturalization, including: literacy, language, and other requirements.

Economics

1/2 CARNEGIE CREDIT

STRANDS: CIVICS, ECONOMICS, CIVIL RIGHTS, GEOGRAPHY, AND HISTORY

STANDARD	OBJECTIVE(S)
<p>E.1 Explain the concepts of scarcity, choice, decision making, and opportunity cost. (Strands: Civics, History, Economics)</p>	<ol style="list-style-type: none"> 1. Identify that scarcity is the condition of not being able to have all of the goods and services that one wants. It exists because human wants for goods and services exceed the quantity of goods and services that can be produced using all available resources. 2. Explain that scarcity is experienced by individuals, governments, and societies. 3. Illustrate that making good choices should involve trading off the expected value of one opportunity against the expected value of its best alternative. 4. Explain the choices people make have both present and future consequences and differs across individuals and societies. 5. Identify choices made by individuals, firms, or government officials are constrained by the resources to which they have access. 6. Discuss ways that decisions made by individuals, firms, or government officials often have long run unintended consequences that can partially or entirely offset or supplement the initial effects of the decision. 7. Explain the concept of marginal benefit and marginal cost in relationship to choose. 8. Evaluate the role that risk takes in decision making and that risk can be reduced by diversification.

E.2

Describe different economic systems and how people work individually or collectively to allocate goods and services. (Strands: Civics, History, Economics)

1. Explain that scarcity requires the use of some distribution method to allocate goods, services, and resources, whether the method is selected explicitly or not.
2. Describe the differences between a market economy, in which allocations result from individuals making decisions as buyers and sellers, and a command economy, in which resources are allocated according to central authority.
3. Identify the three major economic questions: What goods and services will be produced? How will these goods and services be produced? Who will consume them?
4. Compare and contrast how various economics system vary in the extent to which they rely on government directives (central planning) and signals (prices) from private markets to allocate scarce goods, services, and productive resources.
5. Compare the benefits and costs of different allocation methods in order to choose the method that is most appropriate for some specific problem can result in more effective allocations and a more effective overall allocation system.

E.3

Illustrate how voluntary exchanges and trade are reflections of negative and positive incentives resulting in gain for both parties and that specialization in trade can lead to lower costs of production and increased production and consumption. (Strands: Civics, History, Economics)

1. Describe how consumers, producers, workers, savers, investors, and citizens, people respond to incentives in order to allocate their scarce resources in ways that provide them the highest possible net benefits.
2. Explain how free trade increases worldwide material standards of living.
3. Evaluate gains from free trade and recognize that they are not distributed equally, and some individuals or groups may lose more than they gain when trade barriers are reduced.
4. Explain why even though there are mutual benefits from trade among people in different countries, many nations employ trade barriers to restrict free trade for national defense reasons, to protect key industries, or because some companies and workers are hurt by free trade.
5. Explain why import restrictions by public policies result in consumers paying higher prices and job opportunities and profits in exporting firms may decrease.
6. Explain that labor productivity is output per worker.
7. Evaluate how growing international economic interdependence causes economic conditions and policies in one nation to be increasingly affected by economic conditions and policies in other nations.
8. Describe how individuals and nations have a comparative advantage in the production of goods or services if they can produce a product at a lower opportunity cost than other individuals or nations.
9. Demonstrate that international trade stems mainly from factors that confer comparative advantage, including international differences in the availability of productive resources and differences in relative prices.
10. Explain that transaction costs are costs (not to be confused with the price of the good or service) that are associated with the purchase of a good or service, such as the cost of locating buyers or sellers, negotiating the terms of an exchange, and ensuring that the exchange occurs on the agreed upon terms. When transaction costs decrease, trade increases.
11. Illustrate that an individual, region, or nation can produce at lowest opportunity cost depend on many factors (which may vary over time), including available resources, technology, and political and economic institutions.

E.4

Analyze the role of price on the market, the buyer and the seller. (Strands: Civics, History, Economics)

1. Demonstrate that market prices are determined through the buying and selling decisions made by buyers and sellers.
2. Explain that the term ‘relative price’ refers to the price of one good or service compared to the prices of other goods and services. Relative prices are the basic measures of the relative scarcity of products when prices are set by market forces (supply and demand).
3. Demonstrate that the market clearing or equilibrium price for a good or service is the price at which quantity supplied equals quantity demanded.
4. Explain that if a price is above the market clearing price, it will eventually fall, causing sellers to produce less and buyers to purchase more; if it is below the market clearing price, it will eventually rise, causing sellers to produce more and buyers to purchase less.
5. Explain that market outcomes depend on the resources available to buyers and sellers, and on government policies.
6. Demonstrate that a shortage occurs when buyers want to purchase more than producers want to sell at the prevailing price and that a surplus occurs when producers want to sell more than buyers want to purchase at the prevailing price.
7. Explain that shortages of a product usually result in price increases in a market economy; surpluses usually result in price decreases.
8. Relate the concept of market price to exchange rates which are set in the foreign exchange market. When the exchange rate between two currencies changes, the relative prices of the goods and services traded among countries using those currencies change; as a result, some groups gain, and others lose.
9. Recognize that demand for a product changes when there is a change in consumers’ incomes, preferences, the prices of related products, or in the number of consumers in a market.
10. Recognize that the supply of a product changes when there are changes in either the prices of the productive resources used to make the product, the technology used to make the product, the profit opportunities available to producers from selling other products, or the number of sellers in a market.
11. Illustrate that changes in supply or demand cause relative prices to change; in turn, buyers and sellers adjust their purchase and sales decisions.
12. Illustrate how government-enforced price ceilings set below the market-clearing price and government-enforced price floors set above the market-clearing price distort price signals and incentives to producers and consumers. Price ceilings can cause persistent shortages, while price floors can cause persistent surpluses.

E.5

Analyze and evaluate the impact the market structures, entrepreneurship and institutions have on the market economy, competition and income. (Strands: Civics, History, Economics)

1. Describe how pursuit of self-interest in competitive markets usually leads to choices and behavior that also promote the national level of well-being.
2. Evaluate the level of competition in an industry is affected by the ease with which new producers can enter the industry, and by consumers' information about the availability, price and quantity of substitute goods and services.
3. Evaluate how market structures which are dominated by large firms, often competing against only a few other firms cause prices to be higher than they would be in more competitive markets.
4. Explain how collusion among buyers or sellers reduces the level of competition in a market and that collusion is more difficult in markets with large numbers of buyers and sellers.
5. Identify the household as a major institution in which consumption and production take place. Recognize that banks and other financial institutions channel funds from savers to borrowers and investors.
6. Describe how labor unions have influenced laws created in market economies and, through the process of collective bargaining with employers, labor unions represent some workers in negotiations involving wages, fringe benefits, and work rules.
7. Identify the role that not-for-profit organizations have and that they are established primarily for religious, health, educational, civic, or social purposes and are exempt from certain taxes.
8. Evaluate the role that property rights, contract enforcement, standards for weights and measures, incorporation and liability rules affect incentives for people to produce and exchange goods and services have in regulating price and market security.
9. Discuss how entrepreneurs organize resources to produce goods and services because they expect to earn profits.
10. Demonstrate that entrepreneurs (as well as other sellers) earn profits when the revenues they receive from selling the products they sell are greater than the costs of production.
11. Demonstrate that entrepreneurs (as well as other sellers) incur losses when the revenues they receive from selling the products they sell do not cover the costs of production.
12. Compare and contrast positive and negative aspects of entrepreneurship.
13. Evaluate how entrepreneurial decisions are influenced by tax, regulatory, education, and research support policies.

14. Explain and define the different forms of getting income: labor, capital, natural resources, and entrepreneurial talents.
 15. Analyze how peoples' incomes, in part, reflect choices they have made about education, training, skill development, and careers.
 16. Demonstrate how changes in the structure of the economy, including technology, government policies, the extent of collective bargaining and discrimination, can influence personal income.
 17. Illustrate how in a labor market, in the absence of other changes, a higher wage increases the reward for work and reduces the willingness of employers to hire workers.
-

E.6

Evaluate the role of money and its relationship to inflation, unemployment and interest rates in the market economy.
(Strands: Civics, History, Economics)

1. Describe the three functions of money: a store of value, a unit of account, and a medium of exchange.
2. Explain how money encourages specialization by decreasing the costs of exchange.
3. Identify Inflation and its impact on the value of money.
4. Compare and contrast M-1 and M-2 money in the United States.
5. Explain why deposits in checking accounts are considered money but assets such as stocks and bonds are not. Explain why a credit card should not be considered money.
6. Given a chart, the student will determine in which years inflation occurred given the prices of a market basket of goods and services for three different years.
7. The consumer price index (CPI) is the most commonly used measure of price-level changes. It can be used to compare the price level in one year with price levels in earlier or later periods.
8. The annual inflation rate is the percentage change in the average prices of goods and services over a twelve-month period.
9. Explain how in the long-run, inflation results from increases in a nation's money supply that exceed increases in its output of goods and services.
10. Define an interest rate as the price of money that is borrowed or saved which are determined by the forces of supply and demand.
11. Distinguish between real and nominal interest rates.
12. Evaluate the impact of higher real interest rates on business investment spending and consumer spending on housing, cars, and other major purchases.
13. Describe how expectations of increased inflation may lead to higher interest rates.
14. Examine the types of unemployment.
15. Evaluate why unemployment statistics are an imperfect methods of measuring unemployment.
16. Compare and contrast how unexpected inflation imposes costs on many people and benefits others.

MISSISSIPPI COLLEGE- and CAREER-READINESS STANDARDS for the Social Studies • 2018

<p>E.7 Describe economic growth and the causes and effects of economic fluctuations. (Strands: Civics, History, Economics)</p>	<ol style="list-style-type: none">1. Describe the characteristics of economic growth in the long and short term. Trace and illustrate how economic growth has been a vehicle for alleviating poverty and raising standards of living.2. Explain the importance of investing in new physical or human capital on future productivity and consumption, but such investments require the sacrifice of current consumption and entail economic risks.3. Investigate how lower interest rates encourage investment.4. Trace how the rate of productivity increase in an economy is strongly affected by the incentives that reward successful innovation and investments (in research and development, and in physical and human capital).5. Define and explain GDP, its components, and how it can be calculated.6. Compare and contrast GDP and GDP per capita.7. Compare and contrast real and nominal GDP.8. Evaluate the business cycle in terms of fluctuations in real GDP around its potential level.
<p>E.8 Evaluate the role of the government in correcting market failures. (Strands: Civics, History, Economics)</p>	<ol style="list-style-type: none">1. Describe the reasons for a market failure.2. Explain the role for government in the economy is to define, establish, and enforce property rights.3. Compare and contrast positive and negative externalities on the market.4. Identify methods the United States government can use to help correct for insufficient output of a positive and excess production of negative externalities, including: such as subsidies, laws, government ownership, income redistribution through tax laws, and price controls.5. Evaluate the pros and cons of market intervention by the government to correct market failures.

E.9

Compare and contrast fiscal and monetary policy. (Strands: Civics, History, Economics)

1. Discuss how fiscal policies are decisions to change spending and taxation levels by the federal government to influence national levels of output, employment, and prices.
2. Describe the short-term and long-term benefits and costs of fiscal policy.
3. Discuss how monetary policy by the Federal Reserve Bank influences the overall levels of employment, output, and prices.
4. Distinguish between a budget deficit, a budget surplus and a balanced budget.
5. Describe why a government debt is created.
6. Evaluate how monetary policies lead to changes in the supply of money, short term interest rates, and the availability of credit.
7. Describe the Federal Reserve System's three major monetary policy tools.
8. Distinguish between the federal funds rate, the discount rate, and the prime rate.
9. Describe the reasons the Federal Reserve would increase interest rate targets.
