

**District:** Tate County Schools  
**Section:** F - Facility Expansion  
**Policy Code:** FCA - Facility Studies

**Separation of Authority**

Any school district that hires a company to perform a facility study, shall not use that same company to purchase any required equipment, install equipment, or perform subsequent services. For any additional services, the district must consult a separate entity who is in no way affiliated with the original facility study company.

For any construction projects over \$500,000 dollars, the district shall hire a project manager. If the district hires a project manager, that manager shall not be associated in any way with the architect or the facility study company.
